

2's Part-time Program MWF 2024-2025

Our 2's program serves as a transition into preschool and early childhood education. Children learn to socialize, play, and communicate with each other and their teachers by learning to explore their environment, take turns, share, practice good manners, and good health habits. All these areas are fundamental to the earliest preschool years. The 2's program is a great way to prepare young children for school.
